!pip install pymysql

Database Setup And Import

```python
[3]: import pymysql
     conn=pymysql.connect(host='localhost', user='root', password='rehan123rehan123',databas
     conn
```

```
[3]: <pymysql.connections.Connection at 0x21d8e6abc50>
```

```python
[4]: import pandas as pd
```

```python
[5]: query='SELECT * FROM crime_data.crime;'
```

```python
[6]: import warnings
     warnings.filterwarnings('ignore')
```

```python
[7]: import matplotlib.pyplot as plt
     import seaborn as sns
```

```python
[8]: df=pd.read_sql(query,conn)
```
